Dear Ann:-

You are to be congratulated on many counts:
your beautiful baby; your quick recovery; your
nice letter and your charming disposition.
I enjoyed reading your letter and was glad to
hear again from you.

Now that you have the little Barbara to look
after your outlook will be better and if Ed.
gets much of your attention he will be lucky
although I do believe your nature is such
that you can embrace many subjects.

The Sunday that Dan and Ed. came,
over two weeks ago, was followed about a
week later by a very severe cold caused
by working in a hot bakery and I was
returned to hospital. Came out yesterday
and got your letter. Am feeling very
dizzy and weak and am writing this letter
resting it on a magazine on my lap.

My last letter was addressed to Ed. and
requested several things to be sent me.

It looks like the old run around
again.

Well I cannot write to long and I
do not have your letter here to answer in
detail; so this must suffice.

A little kiss for Barbara; a big one for you
and regards to Ed.
